## Zicron<sup>®</sup>

Zicron is a liquid nutrient product that is designed to provide zinc (Zn) and other nutrients that may be deficient in the soil or plant.

### DIRECTIONS FOR USE

**Foliar Applications:** Avoid spraying in the heat of the day or when the plant is under moisture stress to achieve optimal product performance. **DO NOT** spray to the point of runoff.

**Soil Applications:** For best results, use watered-in applications. May be applied via irrigation system or prior to irrigation. Apply enough water to move the product into the area of active rooting, but not excessive amounts that may leach. Use the higher label rates with surface and flood irrigation.

Recommended mixing sequence: water, adjuvants, pesticides, Valent BioSciences nutrient products, other fertilizers, balance of water while agitating. When mixing with high phosphate fertilizers, add a citric acid buffer until the pH is 4.5 to 5.0 to improve compatibility and uptake. Ensure agitation is available when mixing with calcium fertilizers. A standard jar test is recommended before tank mixing.

### RATES & TIMING FOR ALL CROPS

**Foliar:** Apply **1.5-10 L/ha** any time during the growing season; repeat as needed.

**Soil:** Apply **2.5-20 L/ha** any time during the growing season; repeat as needed.

### WARNING

**READ ENTIRE LABEL BEFORE USE | KEEP OUT OF REACH OF CHILDREN | DO NOT SWALLOW**  
The spray from this product may act as an irritant. Avoid inhalation and contact with the eyes and skin.

**HAZARD STATEMENTS** Causes serious eye irritation.

**PRECAUTIONARY STATEMENTS** Wash hands thoroughly after handling. Wear eye protection/face protection. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice/attention.
