READ SAFETY DIRECTIONS BEFORE OPENING OR USING

# FINESSE®

SELECTIVE MITICIDE

ACTIVE CONSTITUENT: 110 g/L ETOXAZOLE  
ALSO CONTAINS: 45 g/L ETHYLENE GLYCOL

GROUP **10B** INSECTICIDE

**For the control of mites in turf.**

## DIRECTIONS FOR USE

**DO NOT** apply if rainfall is expected before spray has dried.

**DO NOT** apply by air.

**DO NOT** apply more than one spray per season as over-use may lead to development of mite resistance.

SITUATION	PEST	RATE	CRITICAL COMMENTS
Turf (including golf courses, bowling greens, sports fields, commercial and residential lawn, turf farms)	Couch mite ( <i>Aceria cynodoniensis</i> ), And other mites affecting turf	200 mL	Apply Finesse soon after first symptoms appear. As a mite growth regulator, Finesse is slow acting and will provide best results during the early phase of the infestation.  Finesse can be applied in a multi-spray program with other products with different modes of action but should always be the first spray in the program.  Finesse should be applied in 400L water to ensure thorough penetration of the thatch and maximum leaf uptake.  Do not apply Finesse if rain is imminent.

**NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.**

### WITHHOLDING PERIODS

**DO NOT GRAZE TREATED TURF OR FEED TURF/LAWN CLIPPINGS FROM ANY TREATED AREA TO POULTRY OR LIVESTOCK.**

## GENERAL INSTRUCTIONS

### MONITORING:

Effective mite control depends upon regular monitoring of turf during the season at 3-5-day intervals.

### MIXING:

Shake well before using.

Measure the required amount of Finesse, add to the partly filled spray tank and then add the remainder of the water.

### APPLICATION:

Finesse should be applied in 400L water to ensure thorough penetration of the thatch and maximum leaf uptake.

### RE-ENTRY:

Do not allow entry into treated areas until the spray has dried, unless wearing cotton overalls buttoned to the neck and wrist (or equivalent clothing) and chemical resistant gloves. Clothing must be laundered after each day's use.

## INSECTICIDE RESISTANCE WARNING:

### GROUP 10B INSECTICIDE

For insecticide resistance management Finesse Selective Miticide is a Group 10B insecticide. Some naturally occurring mite biotypes resistant to Finesse and other Group 10B insecticides may exist through normal genetic variability in any mite population. The resistant individuals can eventually dominate the mite population if Finesse or other Group 10B insecticides are used repeatedly. The effectiveness of Finesse on resistant individuals could be significantly reduced.

Since the occurrence of resistant individuals is difficult to detect prior to use, Sumitomo Chemical Australia Pty Ltd accepts no liability for any losses that may result from the failure of Finesse to control resistant mites. Finesse may be subject to specific resistance strategies. For further information contact your local supplier, Sumitomo Chemical Australia Pty Ltd representative or local department of agriculture agronomist. To ensure Finesse remains effective **DO NOT** use Finesse more than once per season.

## PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

Very toxic to aquatic life. **DO NOT** contaminate wetlands or watercourses with this product or used containers.

## STORAGE AND DISPOSAL

Store in the closed original container in a well ventilated area, as cool as possible, although avoid freezing. **DO NOT** store for prolonged periods in direct sunlight.

Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. **DO NOT** dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point.

If not recycling, break, crush, or puncture and delive empty packaging for appropriate disposal to an approved waste management facility. If an approved waste management facility is not available bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations.

**DO NOT** burn empty containers or product.

## SAFETY DIRECTIONS

Will irritate the eyes. Avoid contact with the eyes. When opening the container and preparing spray wear cotton overalls buttoned to the neck and wrist (or equivalent clothing), a washable hat and elbow-length gloves.

When using the prepared spray wear cotton overalls buttoned to the neck and wrist (or equivalent clothing) and a washable hat.

Wash hands after use. After each day's use wash gloves and contaminated clothing.

## FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre.

Phone Australia 131 126; New Zealand 0800 764 766.

## SAFETY DATA SHEET

Additional information is listed in the Safety Data Sheet (SDS) obtained from Sumitomo Chemical Australia Pty Ltd.
