Transit[®] Duo

Transit Duo is a soil- or foliar-applied liquid nutrient product that is designed to resolve nutrient deficiency in all crops.

DIRECTIONS FOR USE

For Foliar Applications: Avoid spraying in the heat of the day or when the plant is under moisture stress to achieve optimal product performance. **DO NOT** spray to the point of runoff.

For Soil Applications: For best results, use watered-in applications. May be applied via irrigation system or prior to irrigation. Apply enough water to move the product into the area of active rooting, but not excessive amounts that may leach. Use the higher label rates with surface and flood irrigation.

Transit Duo is compatible with most fertilizers regardless of pH. However, standard jar test is recommended before tank mixing. Recommended mixing sequence: water, adjuvants, pesticides, Valent BioSciences nutrient products, other fertilizers, balance of water while agitating.

RATES & TIMING FOR ALL CROPS

In Furrow or Pop-up Fertilisers: Apply **0.4 - 0.6 L/ha** with fertilisers applied near the seed.

Banded Fertilisers: Apply with the seed, side dressed, dribbled or strip tilled. **Mix 0.6 - 0.9 L/ha** with liquid fertilisers; higher rates of fertiliser require the higher label rates of Transit Duo.

Dry Granular Fertilisers: Impregnate onto dry fertiliser depending on the final application of fertiliser in the field. Final applied fertiliser should carry **0.6-0.9 L/ha** of Transit Duo.

Broadcast Liquid Fertilisers: Mix **0.6 - 0.9 L/ha** with chemical applications or suspensions.

Irrigation: Apply **0.6 - 0.9 L/ha** can be applied by itself or mixed with fertiliser through irrigation systems.

Foliar: Apply **0.4 - 0.9 L/ha** any time during growing season. Use higher rate with water volume over 450 L/ha.

WARNING

READ ENTIRE LABEL BEFORE USE | KEEP OUT OF REACH OF CHILDREN | DO NOT SWALLOW
The spray from this product may act as an irritant. Avoid inhalation and contact with the eyes and skin.

HAZARD STATEMENTS Harmful if swallowed. May be harmful in contact with skin.

PRECAUTIONARY STATEMENTS Wear protective gloves/protective clothing/eye protection. Wash skin thoroughly after handling. Do not eat, drink or smoke when using this product. **IF SWALLOWED:** Rinse mouth. Call a POISON CENTER or doctor/physician if you feel unwell. Dispose of contents/container in accordance with local/national regulations.
